SINGITA SERENGETI activities

Daily game drives

Daily game drives with Singita Field Guides provide the perfect opportunity to get up close with Africa's incredible wildlife, with evening drives revealing the elusive magic of nocturnal Africa, always ending with a perfect sunset. Our game drives are all conducted in state-of-the-art safari vehicles, each accommodating a maximum of six guests.

Guided safari walks

Walking safaris are an incredible way to experience the bush up close. An expert Field Guide will accompany guests as they track animals on foot through the wilderness. Enjoy magnificent landscapes and their beautiful plant and animal species from an intimate perspective during these awe-inspiring experiences in nature. We suggest a minimum age of 16 years for this activity, but participation is at the discretion of the Field Guide.

Hot air ballooning

Singita guests can experience the Serengeti from an elevated viewpoint aboard a hot air balloon. Partnering with our preferred supplier in the region, Serengeti Balloon Safaris, this experience offers guests a unique way to experience the Serengeti at sunrise.

Bird watching

There is a variety different of bird species at Singita Serengeti and the area is a bird watcher's dream. Guests can engage with the Field Guides at the lodge to learn more about the birds in the area.

Stargazing

There is no more transcendent experience than looking up at a full sky of sparkling stars. With minimal light pollution and no city lights, the views of the stars are crystal clear.

COMMUNITY & CONSERVATION

The Grumeti Fund is an independent non-profit organisation that champions conservation and community development projects in the Serengeti. In partnership with the Grumeti Fund, Singita raises awareness and donations through the following guest experiences:

Community visit

Visit the RISE Centre (Research & Innovation for the Serengeti Ecosystem). RISE develops and supports research initiatives that provide tangible and resilient solutions to benefit the people and wildlife of the Serengeti ecosystem.

Guests can also visit the Grumeti Fund Environmental Education Centre (EEC), where local secondary school students learn about conserving the earth's limited resources. [If it is during term time, there may be an opportunity to engage with the students].

The experience includes various projects pioneered by the Grumeti Fund in the surrounding community, such as GHOMACOS (Grumeti Horticultural & Marketing Cooperative Society) – the agricultural cooperative established with local farmers. It supplies the Singita lodge kitchens and staff canteens with high-quality, organic produce.

Donation to the Grumeti Fund of USD 75 per person

Visit the Anti-poaching Canine Unit
