SERENGETI, TANZANIA

## A Primal Calling to a Simpler Life

From the moment you land at Sasakwa Airstrip, every minute takes you further from the world you know, deeper into the wilderness. It's a long drive past all our other Grumeti properties, along winding dirt and gravel roads, into the western reaches of the concession. Here, camouflaged amongst a stand of trees, Explore rests on the plains.

The landscape guides this pared-back, private camp. Wind cools you. Heat nudges you towards shade. Curiosity calls you into each day. You wake gently to a human voice announcing sunrise, and at night, wildlife calls from the nearby dark. Free to roam, you feel earth crunch beneath every step, share meals over open flame, and end days trading stories around embers, under star-filled skies. It's simple, yet holds everything you need: a comfortable bed, a warm bucket shower, and those who matter most.

### DETAILS

Explore comprises two private camps, each with six one-bedroom tents. Two of these tents can be set up to accommodate families, or the additional space can be used for wellness treatments and fitness activities. From here, you can explore the Serengeti on guided bush walks (for children 16 and older), morning and afternoon drives, and hot air balloon rides. You can also enjoy stargazing, birdwatching, local board games, and intimate wine tastings and cooking classes, join guided meditation and yoga sessions, and share stories around tables and fires. Children of all ages are welcome.

### THE EXPLORE EXPERIENCE OFFERS:

Simple, nourishing, seasonal meals cooked over open flames and enjoyed fireside or in the main tent.

A private vehicle and a small group of people dedicated to guiding every aspect of your stay.

A natural, non-invasive ambience, including the sounds and scents of the landscape, warm lighting, and flickering flames.

Opportunities for deep rest through meditation, silence, drawing, conversation, and shared learning.
