PLEASE NOTE:

- Robinson 44 cannot land at Singita Kwitonda Lodge & Bisate Lodge
- Agusta 119 will land at Singita Kwitonda Helipad with maximum weight of 280 kg – Subject to weather permitting
- Agusta 119 will land at Bisate Lodge Helipad with maximum weight of 240 kg – Subject to weather permitting
- Agusta 109 will land at Singita Kwitonda Helipad with maximum weight of 240 kg – Subject to weather permitting
- Agusta 109 will land at Bisate Lodge Helipad with maximum weight of 220 kg – Subject to weather permitting
- Agusta 139 will land at Singita Kwitonda or Bisate Lodge Helipad with maximum weight of 450 kg – Subject to weather permitting
- Helicopter flights are weather permitting.
- A vehicle and Driver Guide are required for each day of travel while guests are staying at Singita Volcanoes National Park. Apart from driving guests from Kigali to Singita Volcanoes National Park, the Driver Guides are required to transfer guests to the Volcanoes National Park Headquarters, assist with trekking formalities and transfer guests to the relevant trail head to begin their trek. This will vary depending on which gorilla family the guests have been allocated to and can be anywhere from 20 minutes to 2 hours' drive away. The Driver Guide will wait at the relevant trail head until the guests have returned from their trek, which can differ in length from 1-hour to 8-hours and transfer them back to the lodge.
- Driver Guides will also be available for guests at any time should they wish to participate in other activities or venture into Musanze town while staying at Singita Volcanoes National Park.
- Vehicles are 5-seater 4x4 Custom Safari Land Cruisers (there are a limited number of 7-seater vehicles available at the same rate as the 5-seater, however they have slightly less leg room. These are subject to availability and consultants need to confirm availability of a 7-seater vehicle at the time of booking).
